

TABLE OF CONTENTS

All papers were, in accordance with DEEWR requirements, subjected to an independent critical review process by two experts from the field in which the material was written. Full refereed papers are published on a CD-ROM accompanying these proceedings.

All care was taken reformatting submitted manuscripts. The editors apologise for any errors in transcription.

Foreword	iii
Keynote & Invited Speakers	iv

Keynote/Invited Speaker Abstracts

Authors	Title	Paper/ Page No.
Brunsdon, Dave	Rapid Evaluation of Building Safety: Learnings from the December 2007 Gisborne Earthquake	1
Edwards, Mark	An Earthquake Engineering Focus on Australian Critical Infrastructure	2
Gibson, Gary	Geological Hazards Associated with the Wenchuan Earthquake, 12 May 2008	3
Grundy, Paul	Disaster Risk Reduction after Wenchuan	4
Jordan, Bill	Earthquakes & Historical Buildings – it isn't all bad news	5
Lam, Nelson	A Unified Code Model for Seismic and Impact Actions	6
McCue, Kevin	Nine Years after the 1999 September 21 Chi Chi Earthquake	7
Murty, CVR	The Need to Develop Robustness in Structures to Resist Seismic Effects	8
Parker, John	Victorian Urban Search & Rescue (USAR) Arrangements	9
Su, Ray	The Effectiveness of Chinese Seismic Design Codes on Protection of Masonry Buildings against the Great Wenchuan Earthquake	10
Tsang, Hing Ho	Lessons Learnt from the 512 Wenchuan Earthquake: Perception of Seismic Risks	11
Walker, George	Earthquake Micro-Insurance	12

Oral/Poster Abstracts

Abdul Karim, Abdul Razak	Forced Vibration Response of Small Scale URM House with Flexible Timber Diaphragm	13
Anton, Lawrence	Analysing Earthquake Hazard in Papua New Guinea	14
Anton, Lawrence	Tectonic models and their influence on earthquake hazard assessments in Papua New Guinea	15
Bhamare, Rupali	Seismic Performance of Strength Degraded Structures	16
Bhamare, Rupali	Field Testing of a Soft-Storey Building in Melbourne	17
Bi, Kaiming	Simulation of Spatially Varying Ground Motions with Non-Uniform Intensities and Frequency Contents	18
Cousins, Jim	Estimated Casualties in New Zealand Earthquakes	19
Claprod, Maxime	Microtremor Survey Methods in the Tamar Valley, Launceston, Tasmania: Evidence of 2D Resonance from Microtremor Observations	20
Clark, Dan	Re-evaluating the Seismic Hazard Potential of the Northern Lapstone Structural Complex	21
Dent, Vic	Improved Hypocentral Estimates for 2 Recent Seismic Events in South-western Western Australia, using Temporary Station Data	22

Dent, Vic	Graphical Representation of Some Recent Australian Earthquake Swarms, and some generalizations on swarm characteristics	23
Derakhshan, Hossein	Out of Plane Testing of an Unreinforced Masonry Wall subjected to one-way Bending	24
Gladhill, Sean	The Damage Avoidance Design of Tall Steel Frame Buildings – Fairlie Terrace Student Accommodation Project, Victoria University of Wellington	25
Egbelakin, Temitope Kikelomo	Factors Affecting Motivation for Improved Seismic Retrofit Implementation	26
Gurley, Colin	Research Needs for Ordinary Concrete Beams	27
Haritos, Nicholas	Dynamic Response Characteristics of Urban Trees	28
Kashyap, Jaya	Seismic Behaviour of Reinforced Concrete Frames in Australia	29
Kusuma, Gideon	Cyclic Structural Capacity of R/C Frames for Maximum Ductility and Interstory Drift	30
Lumantarna, Elisa	Displacement Controlled Behaviour of Asymmetrical Buildings	31
Lee, Max	Stresses in the Australian Continental Tectonic Plate - Variability and Likely Controls	32
Liang, Jonathan	Characterization of Representative Site Profiles in PMA through Ambient Vibration Measurement	33
Liang, Jonathan	Structural Response to the Predicted Design Earthquakes in Perth Metropolitan Area (PMA)	34
Lotfollahi, Mehrdad	Nonlinear Behaviour of Tall Buildings with Foundation Uplift under Earthquake Excitation	35
M. Sa'don, Norazzlina	Lateral Dynamic Response of a Single Pile Model	36
McCue, Kevin	Short-term Increase in Earthquake Risk at Macquarie Island	37
Mohyeddin-Kermani, Alireza	A Review of Seismic Behaviour of RC Frames with Masonry Infill	38
Mohyeddin-Kermani, Alireza	The Behaviour of RC Frames with Masonry Infill in Wenchuan Earthquake	39
Nicknam, Ahmad	Synthesizing the 2006 Silakhor (Darb-e-Astane) Earthquake (Iran), using Empirical Green's Function Method	40
Rosart, Joel	Seismic Design of Elevated Slurry Storage Tanks for AS/NZS 1170	41
Saidi, Ibrahim	Innovative Passive Viscoelastic Damper to Suppress Excessive Floor Vibrations	42
Sheikh, Neaz	Estimation of Yield Curvature for Direct Displacement-based Seismic Design of RC Columns	43
Sivanerupan, Siva	Drift Performance of Façade Systems	44
Somerville, Paul	Contribution of Identified Active Faults to Near Fault Seismic Hazard in the Flinders Ranges	45
Stratton, David	A Global Dense Sensor Network	46
Venkatesan, Srikanth	Response Spectra for Long Distance Subduction Earthquakes on Soft Soil Sites	47
Wibowo, Ari	Damage in the 2008 China Earthquake	48
