

Table of Contents

Unless marked with an asterix (*) all papers were, in accordance with DEEWR requirements, subjected to an independent critical review process by two experts from the field in which the material was written. Full refereed papers are published on a USB accompanying these proceedings.

All care was taken reformatting submitted manuscripts. The editor apologises for any errors in transcription.

Foreword	i
Conference Listing/Past Presidents	ii
Keynote Speakers	iii
Programme	iv

Keynote Speakers

Authors	Title	Page No	Paper No
CLIFTON, Charles G	Lessons Learned for Steel Seismic Design from the 2010/2011 Canterbury Earthquake Series	16	16
KANGA, Marlene	Modelling and Methods for Seismic Risk Assessment and Mitigation	54	69
KASAI, Kazuhiko	Seismic Performance of Building Protective Systems: Evaluations from Full-Scale Lab Tests and Actual Earthquake Observations	19	19
SOMERVILLE, Paul Bayless, Jeff Skarlatoudis, Andreas Thio, Hong Kie	Assessment of Seismic Design Motions at Low Probabilities: Comparing Australia and New Zealand	47	61

Oral/Poster Presenters

(in alphabetical order by corresponding authors' surname)

Authors	Title	Page No	Paper No
ALBIDAH, Abdulrahman Altheeb, Ali Lam, Nelson Wilson, John	A Reconnaissance Survey on Shear Wall Characteristics in Regions of Low- to-Moderate Seismicity	8	8

Authors	Title	Page No	Paper No
ALTHEEB, Ali Albidah, Abdulrahman Lam, Nelson Wilson, John	The Development of Strain Penetration in Lightly Reinforced Concrete Shear Walls	7	7
BALFOUR, Natalie Salmon, M Sambridge, M	The Australian Seismometers in Schools Network: a multipurpose network for education, research and monitoring	48	62
BI, Kaiming Hao, Hong	Progressive Collapse Analysis of Hongqi Viaduct: a multi-span simply-Supported Bridge	15	15
CAMPBELL, Kenneth Bozorgnia, Yousef	Updated NGA-West2 Ground Motion Prediction Equations for Active Tectonic Regions Worldwide	38	50
CHEN, Yuanzhi Chouw, Nawawi Kun, Chern Larkin, Tam	Experimental Investigation of Bridge with Footing Uplift under Near-fault Earthquake	29	31
CONNAH, Gary	Prequalification of Mechanical Splices for Reinforcing Bars in Seismic Conditions	34	40
DENT, Vic	Using the "PSN" seismograph network in southwest Australia to improve earthquake locations in the region	21	21
DIZHUR, Dmytro Bailey, Sara Griffith, Michael Ingham, Jason Trowsdale, John	Performance of posttensioned seismic retrofit of two stone masonry buildings during the Canterbury earthquakes	51	65
DUSCHLBAUER, Dominik Heggie, R.S. Nelson, J.T.	Changing the Language of Induced Micro-Seismicity	41	54
ESTRADA, Beatriz	Application of Tectonic Geomorphology in Earthquake Hazard Assessment	13	13
GAMAGE, Janaka Wepitiya Venkatesan, Srikanth	Coda Q for the Sri Lankan Precambrian crust	2	2
GHASEMI, Hadi Horspool, Nick Leonard, Mark Owen, Kathryn Robinson, David	Aftershock probability model for Australia	4	4
GLANVILLE, D. Hugh	Australian Earthquakes 2012	38	47

Authors	Title	Page No	Paper No
HAO, Hong Ip, Jordan	Torsional Responses of Building Structures to Earthquake Loadings Defined in AS1170.4-2007	11	11
HAO, Hong Pearce, Dylan	Adequacy of Required Separation Distance in AS1170.4-2007 to Avoid Seismic Pounding between Adjacent Buildings	12	12
HARITOS, Nicholas Gad, Emad Nguyen, Tuan Wilson, John	Floor Vibrations Induced by Fork-Lifts	42	55
HARITOS, Nicholas Gad, Emad Heath, David Wilson, John	Cyclic Testing Methodology for Temporary Propping of Tilt-up Panels for Wind Loading Effects	41	56
HOULT, Ryan Goldsworthy, Helen Lumantarna, Elisa	Ground Motion Modelling and Response Spectra for Australian Earthquakes	28	29
JORDAN, Bill	Induced building vibrations – can we calculate responses?	32	34
KHATIWADA, Sushil Chen, Yuanzhi Larkin, Tam	An Experimental Study on Pounding Force between Reinforced Concrete Slabs	17	17
KUN, Chern Chen, Yuanzhi Chouw, Nawawi Larkin, Tam	An Experimental Investigation of the Seismic Response of a Bridge due to Simultaneous Horizontal and Vertical Excitations	18	18
LIANG, Jonathan Elias, David Gaul, Brian	Probabilistic Seismically-induced Liquefaction Evaluation	20	20
LOO, Wei Yuen Chouw, Nawawi Kun, Chern Quenneville, Pierre	A new shear key for rocking timber shear walls	44	58
LOVE, David	Do Earthquakes Occur on Fault Lines?	45	59
MCBEAN, Peter	Seismic design principles and methodology for the new Royal Adelaide Hospital	26	26
MCCUE, Kevin	Darwin Northern Territory – an Earthquake Hazard	22	22
MCCUE, Kevin	Some Historical Earthquakes in Tasmania with implications for Seismic Hazard assessment	23	23
MCCUE, Kevin Sinadinovski, Cvetan	50 years since the Skopje 1963 earthquake – Implications for Australian Building Standards	31	33

Authors	Title	Page No	Paper No
MOTE, Timothy So, Minly	Sensitivity of Liquefaction Triggering Analysis to Earthquake Magnitude	35	42
NGUYEN, Nam Epackachi, S. Kurt, E. Varma, A. Whittaker, A.	In-plane shear response of steel-concrete composite shear walls: results of experiments	10	10
PATON-COLE, Vidal Gad, Emad Lam, Nelson	Analysis of brick veneer walls on steel frame subjected to seismic loads	1	1
PHILLIPS, Michael Andre McCue, Kevin	Measuring Bridge Characteristics to Predict their Response in Earthquakes	25	25
QIN, Xiaoyang Chouw, Nawawi	Prediction of seismic induced forces in an upliftable structure	30	32
RAMLI, Mohd Zamri Adnan, A.	Drift Performance of Bridge Pier with Various Rubber Bearing Design	9	9
RYU, Hyeuk Edwards, Mark Maqsood, Tariq Wehner, Martin	An Enhancement of Earthquake Vulnerability Models for Australian Residential Buildings Using Historical Building Damage	46	60
SHAHI, Rojit Gad, Emad Lam, Nelson Saifullah, Ismail Wilson, John	Realistic Modelling of Cold-Formed Steel in Domestic Constructions for Performance Based Design	6	6
SEMPLE, Robert	Relevance and Reliability of Current Liquefaction Criteria	14	14
SHEIKH, Neaz Mashiri, M. Tsang, Hing-Ho Vinod, J.	Dynamic Properties of Sand-Tyre Chip Mixtures	36	43
SHEIKH, Neaz Tsang, Hing-Ho Yaghmaei-Sabegh, Saman Anbazhagan, P.	Evaluation of Damping Modification Factors for Seismic Response Spectra	36	44
SHRESTHA, Bipin BI, Kaiming Hao, Hong	Pounding and Unseating Damage Mitigation on Bridge Structures subjected to Spatially Varying Ground Motions using Restrainers and Rubber Bumpers	3	3

Authors	Title	Page No	Paper No
SO, MINLY Koo, R.C.H. Mote, Timothy Pappin, Jack	Determination of Small Strain Soil Properties in Hong Kong by Geophysics Testing	24	24
SOFI, Massoud Duffield, Colin Helal, James Hutchinson, Graham L. Letheby, Michael Lumantarna, Elisa Rezapour, Adnan	The Effects of Building Parameters on Seismic Inter-Storey Drifts of Tall buildings	49	63
SPILIOPOULOS, Spiro De Kool, M. Glanville, H. Jepsen, D.	Locating Australian Earthquakes Using the Australian Seismological Reference Model (AuSREM)	52	66
THENHAUS, Paul Campbell, K.W. Khater, M.M. Smith, D.F.	Earthquake Hazard Model for Loss Estimation in Australia Using the 2012 GA Hazard Data	53	67
TSANG, Hing-Ho Lam, Nelson Wilson, John	A Design Spectrum Model Featuring Resonant-like Soil-Amplification	39	49
TURNER, Shane Carr, J.M.	South Australia's Earthquake Risk Assessment process using the National Emergency Risk Assessment Guidelines	50	64
WALKER, George Musulin, Rade	Disaster Risk Reduction and the Earthquake Code - A Disconnect	27	27
WALSH, Kevin Cummiskey, P. Ingham, J.M. Short, N.	Seismic Assessment and Retrofit Prioritisation of Auckland Council's Property Portfolio	33	37
YAN, Libo Chouw, Nawawi Dong, Fei Jayaraman, Krishnan	Seismic performance of flax FRP encased coconut fibre reinforced concrete column	5	5
